Mrs. Schrader teaches 5<sup>th</sup> grade at BIS as well as courses for future educators at UNE.

Another interesting fact about Mrs. Schrader is she has recently been nominated in the Maine teacher of the year contest. She certainly has our vote!

This spring she is conducting her college class here at the Intermediate School on Tuesdays. Her 20 UNE students work in small groups on fun hands-on math activities.

Please mark your calendars for Tuesday, May 2 to join us in the BIS café for a family math night hosted by Mrs. Schrader's UNE students.
