Site Coordinator/ Lead Teacher Toni Newsome 615-5312

<u>Teacher</u> Elijah Meyers

Ed Tech TBD

#### SAMPLE DAILY SCHEDULE

Actual schedule may vary due to earlyrelease Wednesdays, special events, guest speakers, or field trips.

3:30 - 3:45
Afternoon Meeting

3:45 - 4:15
Recess & Snack

4:15 - 5:15
Learning Block

5:15 - 5:25
Reflection Meeting

5:25- 5:30
Dismissal

## WHAT IS LEARNINGWORKS AFTERSCHOOL?

LearningWorks Afterschool is a hands-on, project-based afterschool program focused on STEAM (Science, Technology, Engineering, Arts, and Science) education. LearningWorks Afterschool is specifically designed to give students a positive learning experience that fosters **excitement about learning** and contributes to their **confidence** and **success** in school!

LearningWorks Afterschool provides opportunities *every day* to practice and reinforce skills in **reading** (fiction and non-fiction), **writing** (science notebooks), **math**, **speaking/listening**, and **vocabulary**.

Get ready for more fun with...
"Engineering Adventures"
from the Boston Museum of Science!

Students will participate in "engineering challenges" to build skills in:

Problem solving Teamwork

Communication Creative thinking

Students will learn:

- How to use the Engineering Design Process to solve problems
- Engineers design technologies to help people and solve problems
- They have the potential for designing/improving technologies
- They, too, are engineers!

**Note:** LWAS does not offer individualized homework help or tutoring. At the site coordinator's discretion, staff may provide opportunities for students to work on their homework during student choice time. Our main goal is to provide additional learning opportunities to students through critical thinking activities and projects - in order to build a variety of academic skills and confidence in learning.

### WHAT ARE WE LEARNING?

"Hop To It: Safe Removal of Invasive Species"

Students are learning about invasive species and mechanical engineering!

In this unit, students learn about the invasive cane toads in Australia and the effects of invasive species has on a local environment. Students explore how common machines work, then use their mechanical engineering skills to design a trap that safely captures cane toads in Australia.

### **WHAT IS LET'S GO! 5210?**

Let's Go! is a nationally recognized childhood obesity prevention program implemented throughout Maine. LearningWorks is a partner with Let's Go! Because we believe in positively changing our afterschool learning environment to promote healthy lifestyles for our students!

or more fruits & vegetables

hours or less recreational screen time\*

hour or more of physical activity

osugary drinks, more water

\*Keep TV/Computer out of the bedroom. No screen time under the age of 2.
